

ENERGY CODE POLICY REQUIREMENTS

1. Before building permit can be approved, Builder must provide a MECcheck Compliance Specifications Sheet for the 2000 International Energy Conservation Code.
2. Three required inspections are; 2nd's inspection, Insulation inspection and Final inspection. All three (3) inspections are required to be passed and turned in to Town Hall prior to the Certificate of Occupancy being issued.
3. If this requirement is not met, a Certificate of Occupancy will not be issued, therefore, the utilities will be disconnected until compliance has been made.

I understand that I will comply with the above stated Town requirements for the 2000 Energy Conservation Code.
